Subject: Thank you

We the undersigned are writing this note of thanks to the **SEACORE** representatives sent to Lebanon. Primarily, we thank you for the opportunity that was made for us and the experience that we gained from the extensive training that we were provided. We also would like to thank you for the cultural sensitivity you had for the people and the area and the never ending understanding from your part. Finally we would like to thank you for cleaning our shores. Lebanon, in its small size revolves around what can be produced from its coast and retrieved from its abundant sea, the work that we composed with your training and provisions, has ensured the livelihood of many.

Thank you.

Sincerely yours,
